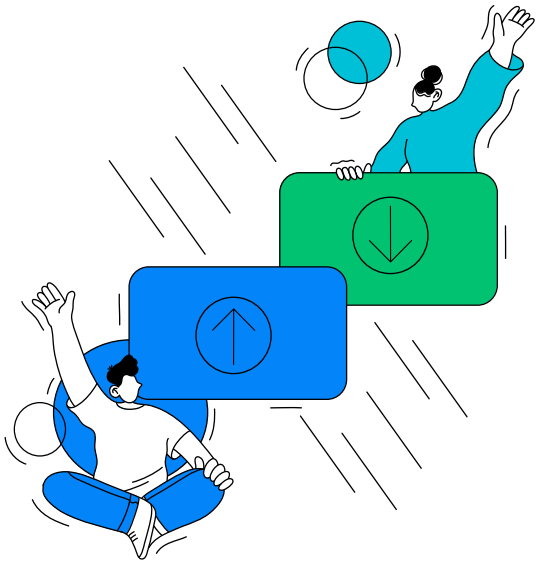
The Proven Payment Processor!

Become a client of BillingTree now and receive .20% off your processing rate through March 2021! The sooner you act, the more savings you receive!*

***Must sign MSA before the end of 2020.**

***After March 2021 the rates return to the original MSA rates for the remainder of the contract.**



BillingTree is a payment technology platform that helps organizations in the accounts receivable management space generate more revenue and decrease expenses. BillingTree's proprietary Payrazr solution is fully integrated with Collect! and offers many compelling features. For example, you can now have a phone agent send a link to a pre-populated payment form with one click.

In the COVID-19 environment, you can use agent-less payment transactions using automated phone (IVR), 2-Way Text Pay (SMS) and a consumer portal. You can also take advantage of flexible convenience fees for better expense management. Best of all, all of this is fully compliant and secure. Visit www.myBillingTree.com for more information and to schedule a demo.

Highlights

1. Send a link to a **pre-populated payment form** with one click
2. Offer **barcodes and QR codes** that push users to a payment form
3. Make agent-less payment transactions using **automated phone (IVR)**
4. Take advantage of **flexible convenience fees** for better expense management.
